Amit Kumar Mishra

Web and Data Analyst and Open Source Contributor

Seeking a beginner role to enhance and explore my knowledge gained at IIIT, Bhubaneswar in the last two years. I am a passionate learner and always try to explore different fields. I have also been part of some open source programs like DevScript Winter of Code and GirlScript Summer of Code.

HTML   CSS   PHP   Web development   Java   Active listening   Excel   SQL   Management   Problem-solving   Android development

PERSONAL PROJECTS

Courier Website
- This is a team project where I worked on the backend and some part of frontend. In this website user can register themselves for courier services .
- Here the tech stack used are HTML, CSS and PHP .
- The link to the project: https://github.com/Amit366/CourierWebsite

Memes App
- This app is a memes sharing app. The app has two buttons 'next' and 'share'. On clicking 'next' different memes are fetched from an API and 'share' button is used to share the memes on social media
- The tech stack used is Java .
- The link to the project: https://github.com/Amit366/MemesApp

Birthday Card App
- This is an app in which a happy birthday caption with an image is generated on typing the name of a person .
- The tech stack used is Java .
- The link to the project: https://github.com/Amit366/Birthday_Card_app
